With Pride

we dedicate

this Medic to George Paff

Our Dedication Is to Him As a Teacher

and As a Friend and As a Unique Personality - - -

In Him We Found The Subtleties of Friendship

The Excentricities of Talent and The Actions of

A Great and Generous Personality - - -

He Began With Us This Demanding Experiment - - -

Our Class Was First to Savor His Fabulous Singularity

and His Genius - - -

It Is to Him We Dedicate This Record of Our Tangible

Experiences and of Our Intangible Memories - - -

To The Class of 1953

To The Class Of 1953:

About five years have passed since you first indicated your desire to come to Hahnemann. These have been full and hard years. Now that Graduation approaches, we are aware that you—having entered to learn—are about ready to go forth—to serve. The formal part of your education, except for the interneship, is almost completed, and you have experienced the great satisfaction of acquiring knowledge; and further, have realized the full fruition of your professional training will be accomplished only by the continuation of being a student for the remainder of your professional lives. It will be more fun being a student when there is no formality of medical school.

The realization of a well-balanced uniform medical education is particularly remarkable when one considers the blending and molding that is necessary in the development of so many young people from a great variety of premedical environments. In your class of 84 members, fifty-nine, or approximately 70 per cent, are Pennsylvanians: sixty-three members, or 75 per cent, have had their premedical training in twenty different colleges or universities in Pennsylvania; twenty-five members, or approximately 30 per cent, are citizens of States other than Pennsylvania; twenty-one members, or 25 per cent, have received their premedical education in fourteen colleges or universities outside Pennsylvania. The average age is about twenty-seven years. As of this writing, fifty-one members, or 60 per cent, are married, and have forty-two children. This is a cross-section of young life today, and Hahnemann is proud of the accomplishments of her new crop of alumni this year, and considers it a cherished privilege to have contributed so much to the progress of American Medicine.

To each and every member of "The Class of 1953" I wish to extend heartiest congratulations, and every good wish for a happy, healthful and prosperous future.

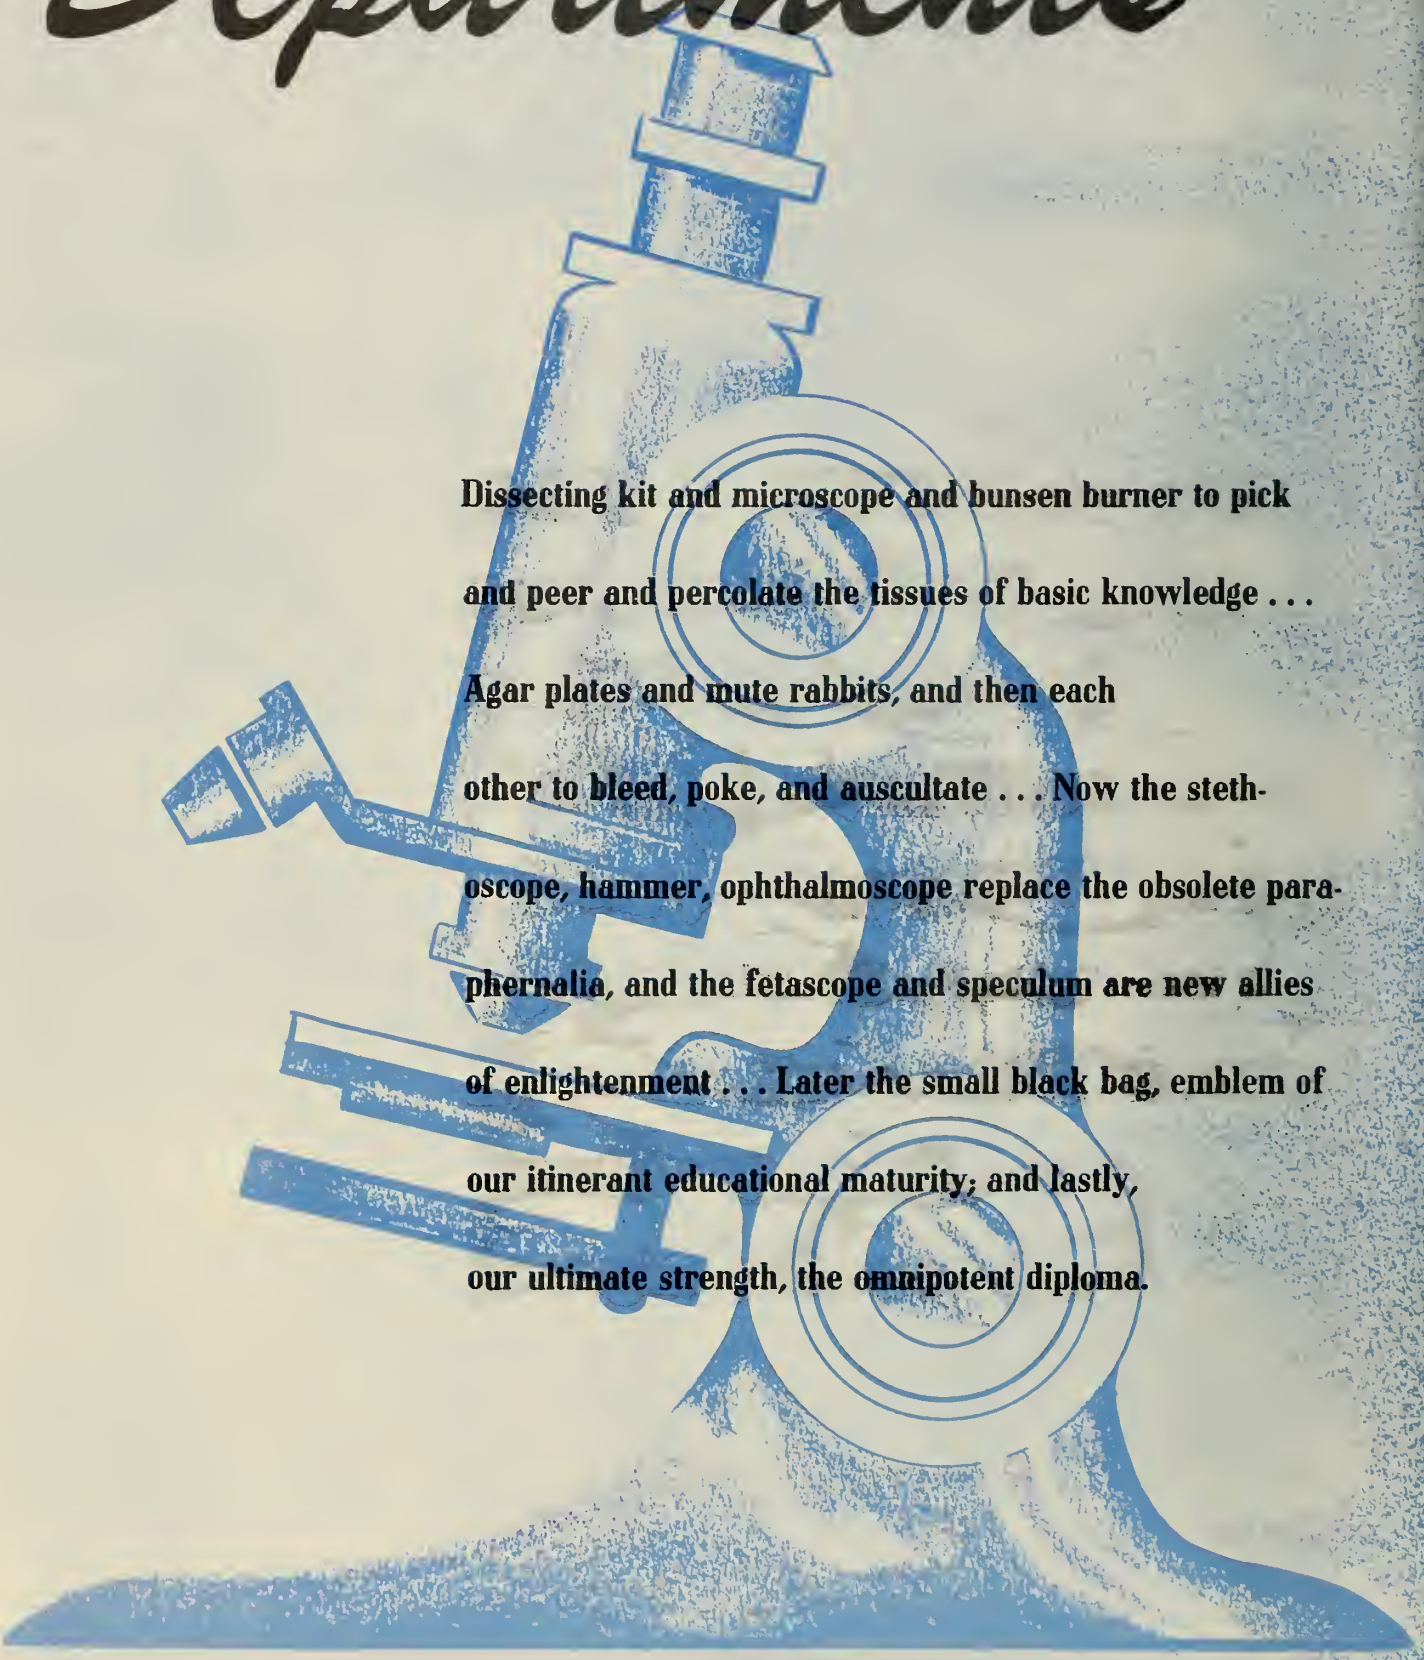
Departments



Dissecting kit and microscope and bunsen burner to pick and peer and percolate the tissues of basic knowledge . . . Agar plates and mute rabbits, and then each other to bleed, poke, and auscultate . . . Now the stethoscope, hammer, ophthalmoscope replace the obsolete paraphernalia, and the fetascope and speculum are new allies of enlightenment . . . Later the small black bag, emblem of our itinerant educational maturity; and lastly, our ultimate strength, the omnipotent diploma.

Department of

Raymond C. Truex
Professor and Head, Division of Anatomy

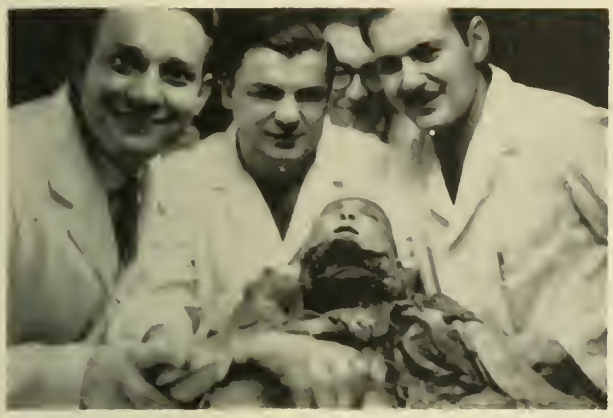
George H. Paff
Professor of Anatomy

THE SHOCK OF the unique didactics of Paff . . . The grim bravado upon first introduction to our cadavers . . . At first dainty dissection; with anatomic maturity free swinging evisceration . . . 25,000 new terms, and a race with the clock in the practicals . . . The thorax in four days and four interminable weeks on the head and neck . . . Pungent aromas, mnemonics, and rattling bone boxes.

Eau de cadavre

Three-and-a-half Musketeers.

Anatomy



I did it with my little hatchet.

You should see this guy's hemiazygous.

Everytime I see a giraffe I think of long axons—

Alas, poor Yorick . . .

Armand W. Angulo
Associate Professor of Anatomy

ASCENDING COLUMNS, descending columns, red and gray and white and aboriginal nuclei . . . Machine gun dictation by Truex, with awe and respect for his talent . . . A multitude of polychromatic tissue sections . . . A geographic complex of geometric drawings . . . The orange stick our weapon and the hypothalamus our nemesis.

Chemistry

Dr. John Boyd
Professor and Head, Department of Biological Chemistry

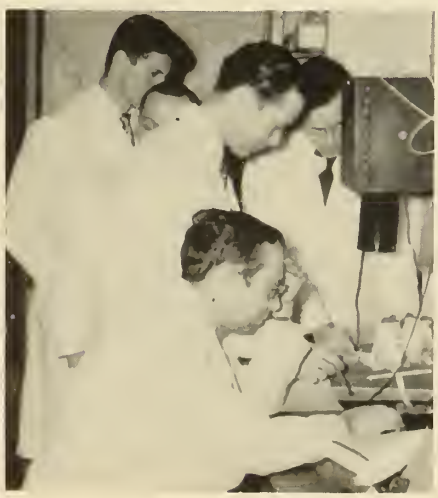
Cooking School

Diabetes sure makes it taste sweet

BOTTLES AND TUBES and flasks and stinks and an awareness of electrolytes and the structure of hemoglobin . . . Daily rosters by Chandler, and the happy acquaintance of a man named Boyd . . . The youthful genius of Alper and the quiet talent of DeFrates . . . We read about Houssay dogs and treat hyperglycemic rabbits . . . We boil down great mounds of anonymous hair into the elixer of life.

Will it make out my income tax?

Now who was on the purine diet?



Physiology

Dr. John Scott, *Professor and Head, Division of Physiology,* with associates, Mr. Bechtel, Dr. Reed, Dr. Wiercinski.

The Gastrocnemius Kid

Feline Neurosurgery

MONOTONIC LECTURES amid Stygian gloom . . . Bimonthly quizzes and occasionally the Goon Squad . . . The paraldehyded turtle, Rana pipiens, and the mongrel pup our patients . . . The daily ascendance up a hundred thousand stairs . . . The kymograph our weapon against disease, the Van Slyke our bastion against malady . . . Scott's cool brilliance refrigerates the basic physiologic laws into nervous minds.

Cannulating Capers

Up, up, up, and away.

Pathology

We are broken into three sections, the beginning of the ultimate divorcement . . . Again the microscopes, and formalinized gross specimens are added to the academic menu . . . The soft lectures of John Gregory . . . We become little professors and give conferences of superbly plagerized material . . . We peruse Karsner and memorise "Little Anderson" . . . We feel our lymph nodes daily and imagine unnutterable neoplastic horrors.

Dr. John E. Gregory
Professor and Head
Department and Division of Pathology

Time out for a carcinogen

The Ancient Mariner

Hank delivers the Evil Eye

We begin our autopsies and invarialby are stuck with the intestines . . . "Who'se got the data? How much did the pituitary weigh?" . . . We learn from a peripatetic Froio, the charming Silver Fox . . . We take unannounced quizzes and beware of Kowoi bearing yellow papers . . . A cunning hiding place for smuggled articles is revealed to us radiologically, and we wonder at the astounding adaptivity of the sigmoid.

"... so this salesman said to the farmer's daughter ..."

Innocence and Experience

Bacteriology

We learn of bugs, the round, the rod shaped, and the protean corkscrew . . . We inoculate agar and gape in wonder at the words of Sallman . . . We commisserate with Bondi and his undulent fever . . . And we learn of the infinite variety of worms from their Boswell, Gaby . . . And for a few fleeting moments we are medical Lieutenants in parasitic Korea.

Dr. Amedeo Bondi
Professor and Head, Department of Bacteriology

Pharmacology

Dr. Joseph DiPalma
Professor and Head
Department of Pharmacology

Ah, shoot 'em the arsenic and let's go home.

But I thought it was a male!

We begin with Barnes and acetylcholine, and Dipalma and the wonders of quinidine enter in midterm . . . For the last time we climb the uncountable multitude of steps . . . We are keepers of flocks of rabbits and become aware of the fecundity of the white rat . . . We administer nicotinic acid to pussycats, and sandpaper our fingertips for Science . . . We misce et fiat and sign our invalid prescriptions with a flourish.

The true, sober, scientific approach.

Peter Rabbit and his bunnies.

Medicine

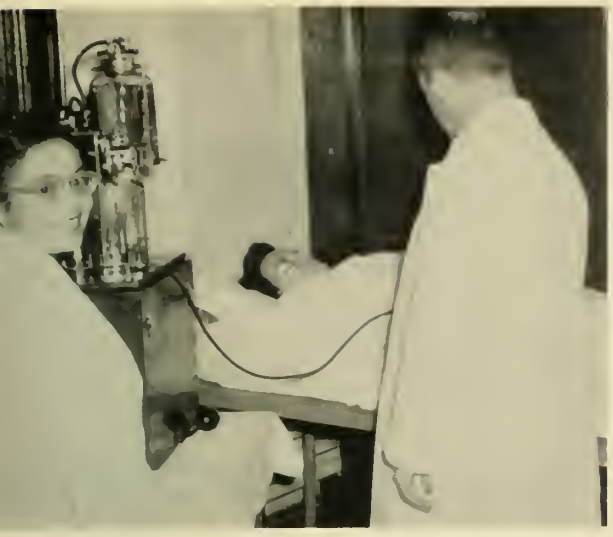
AT LONG LAST a living, breathing, yielding patient . . . "My name is Doctor Shrdlu, and what seems to be your trouble?" We meet Janton, are at first afraid and then realize that he seeks to teach, and is generous . . . The mighty Gambescia takes us for a tour through the hepatic canaliculi . . . Donaldson charms us . . . We tap a chest, and strain to hear a mid-diastolic murmur.

Dr. O. Henry Janton
Associate Professor of Medicine

Dr. Daniel J. Marino
Assistant Professor of Medicine

Pedro P. and the Death Ray.

The amphitheatrical Murphy shuffle



Thees ees fon.

Jantonization.

Dermatology's loads of fun.

Off on the trolley trail to P.G.H. and engulfement in its 2500 beds . . . An awareness of the aloof genius of Thompson . . . We are sent to Sinai and see a multitude of wrangling specialists . . . We continue to get our autopsies and still are stuck with the intestines . . . We take histories and more histories and learn the mysteries of writing orders . . . Bloods and urines, urines and bloods, on and on ad infinitum.

Hepatic auscultation.

A cesspool, young man, a cesspool!

In June of '52 Allentown, Tarantula 12X and handwriting analysis . . . The near forgotten arts of poker and blasting out of a sand trap are revived . . . And we eat and eat of the plenitude of Pennsylvania Dutch cooking . . . We meet incarcerated millionaires with thirteen banks, who have thrashed Joe Louis; we laugh, and become depressed at this plethora of ravaged minds.

Now, who can define a murmur?

Listen to me, Kid, P.Z.I. is for the birds.

Little Joe, Liverologist supreme.

So I said to Pascal . . .

Kitchy kitchy koo.

Ain't he a handsome one, though?

Dr. Albert M. Lupton.

KRELLIN DRAMATISES for us destroyed lobes and suppurating lingulae . . . We inject dust, apply lotia alba, learn of the vagaries of paresis and of the wonders of analgesic capsules for the arthritides, and again strain to hear a mid-diastolic murmur . . . Murphy regales us with the subtleties of diabetes . . . We peer through a false mirror at the faces and souls of reluctant neurotics.

Dr. James B. Donaldson
Assistant Professor of Medicine

Hyposensitize 'em and give 'em Benadryl.

Surgery

Dr. William L. Martin
Professor and Head
Division and Department of Surgery

Dr. Alexander Ulin
Associate Professor of Surgery

A CAP, A GOWN, a mask, and behold the junior surgeons . . . Hypertrophic biceps from hours of steady pull on retractors . . . Shorter histories to write and longer bouts with a multitude of texts . . . The glamor of a scrub suit and the irritating awareness of much forgotten anatomy . . . The staff surgeons are patient, and we feel the lash but rarely . . . We are introduced to the instrument polyglot: Kelly, Satinsky, Alyce, Mayo, Ochsner, Potts.

Suprapubic catheterization

The beginning of the End.

Don't be half safe.

Frankie takes it up the nose.

". . . in 376 cases with 57% of a group of 82 . . ."

THE CHIEF IS a gentleman . . . The scrub nurses are stern and friendly in sequence . . . In Ulin we find a dedicated teacher . . . Conscientious Grotzinger, the infallible statistician . . . Tropea zooms through mastectomies and damns the googoos . . . Pearce is sartorially elegant and enemy to all fumblers . . . Geary gives us the philosophy of experience, . . . We crane to catch a glimpse of Bailey.

Ummm . . .

Dr. Edwin Geckeler
Professor and Head
Division of Orthopedics and Fractures

THREE WEEKS ON private surgery and we act gentlemanly and are at liesure . . . Three weeks on Chest, G.U., and Orthopedics, and we hustle hectically from floor to floor . . . Three weeks at Sinai with post-op histories and physicals . . . Three weeks on the ward service, dynamic, demanding, and occasionally a chance to tie a knot . . . We see a commisurotomy, reduce a Colles, differentiate inguinal from femoral, and are taught that potassium is as mighty as the scalpel.

Split M2 and a conk on the noggin.

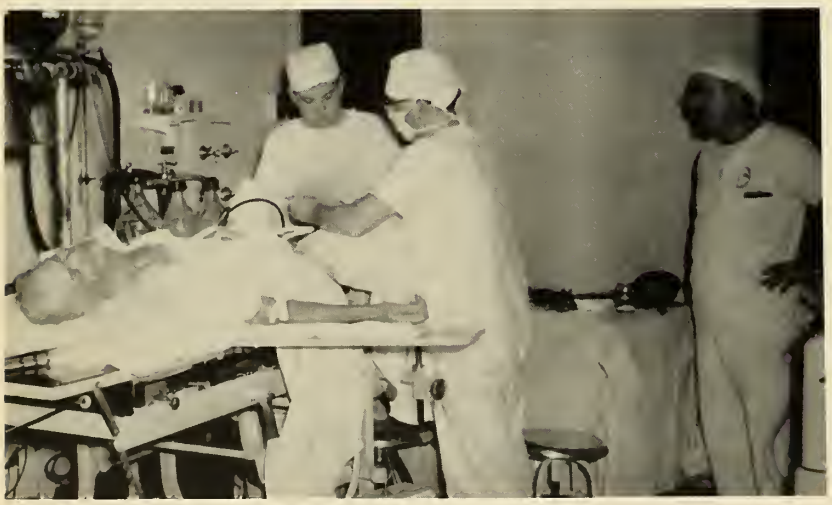
What seems to be your problem?

Stop posing and start shooting.

Grand opening.

WE STAND rooted for hours and watch the taciturn surgery of Olson . . . Surgeons versus radiologists at Tumor Conferences . . . Jones asks for the blood and nerve supply, the ligaments, tendons, cartilages, and actions of the knee, and we stammer . . . We learn how to pass a catheter and suffer vicariously when a sound is threaded home . . .

I got them corpora cavernosa blues.



Help!

Grab a retractor, Malick!

Say AHHH.

Bailey applies the heart machine.

Chee, lookit the siza dem arytenoids!

UP TO HAMBURG for a week: the white plague with a pool table, and the wonders of pneumoperitoneum . . . In clinic we incise a boil, remove a thousand stitches and bandage a million fingers . . . A lucky few cut out a wart or extirpate a wen . . . The subtleties of the rectum are laid bare before us . . . We learn of tonsils and sinuses and snake-like corneal ulcers . . .

So I took out the heart . . .

Glossitis, Parotitis, Geckeleritis.

Department

Dr. Newlin F. Paxon
Professor and Head, Division of Women and Department of Obstetrics

THE ASTOUNDING miracle of parturition, and the inevitable early morning hours of waiting . . . Fetal heart beats and blood pressures and the maneuvers of Leopold . . . We deliver a baby and are proud . . . Lectures to be memorized, and interrupted nights sleeping in the black hole of Calcutta . . . Senior obstetrics at Harrisburg, West Jersey, St. Vincent's, and Hahnemann . . . The imperial supremacy of Paxon, the blasé humor of Reishtein, the pungent wit of Seitchik, and the exhausting hustle of Penman . . .

Lessee, Stage I over at 1:32 A.M.

Gravida twenty seven?!?!?

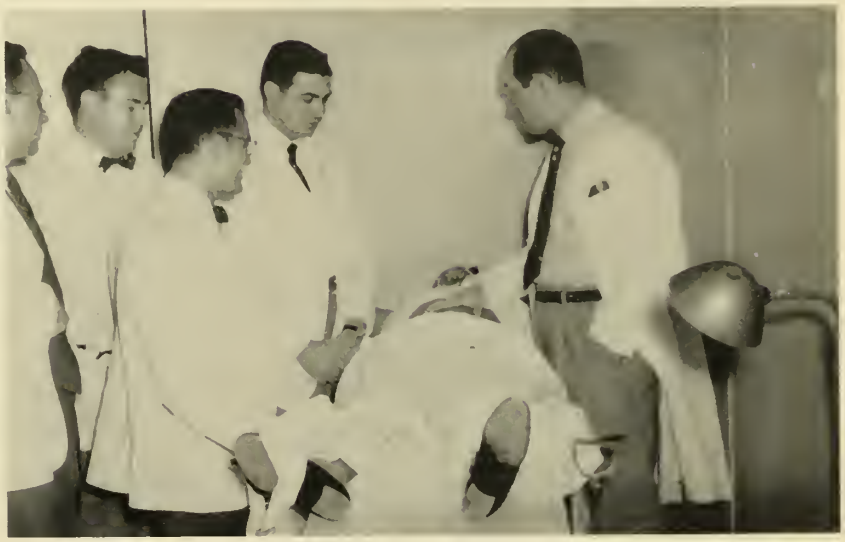
To sleep, perchance to dream.

# of Women

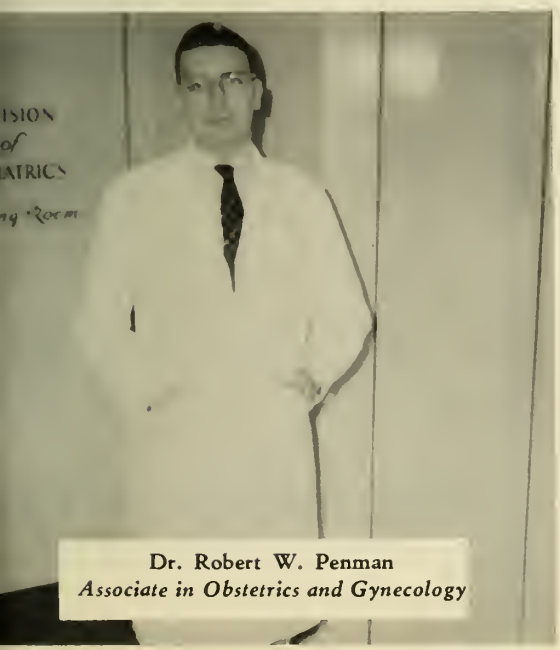
Infrapubic T and A.

Hystery taking.

D AND Cs, D and Cs, and the importance of the cervical smear . . . X-ray versus evisceration, and the intricacies of the Geneva classification . . . The universal handclasp of the gynecologic cogniscenti . . . Pelvics in ignorance until one day the adnexa are made apparent in all their fluctuant glory . . . To hysterectomize or not to hysterectomize, that is the question . . . Gentlemanly orals by MacFadyen, the perpetual fatigue and the gentle charm of Pontarelli . . .



You ticklish, honey?



Dr. Robert W. Penman
Associate in Obstetrics and Gynecology

You ain't gonna do dat to me!

Pediatrics

Dr. Daniel Downing
Assistant Professor of Pediatrics

What the hell is youse guys laughing at?

CONGENITAL HEARTS and diarrhea . . . The fabulous complexities of formulae and the specificities of growth and development . . . The disheartening frustrations of nephrosis and the wonder-drug action of three square meals a day and soap and water . . . Senior excursions to the north, south, east, and west . . . Gratitude for the antibiotics . . . The distinctive aromata of all children's wards, and the cacophonous symphony at feeding time . . .

Dr. Horst Agerty
Clinical Professor of Pediatrics

Beauty and the Beast.

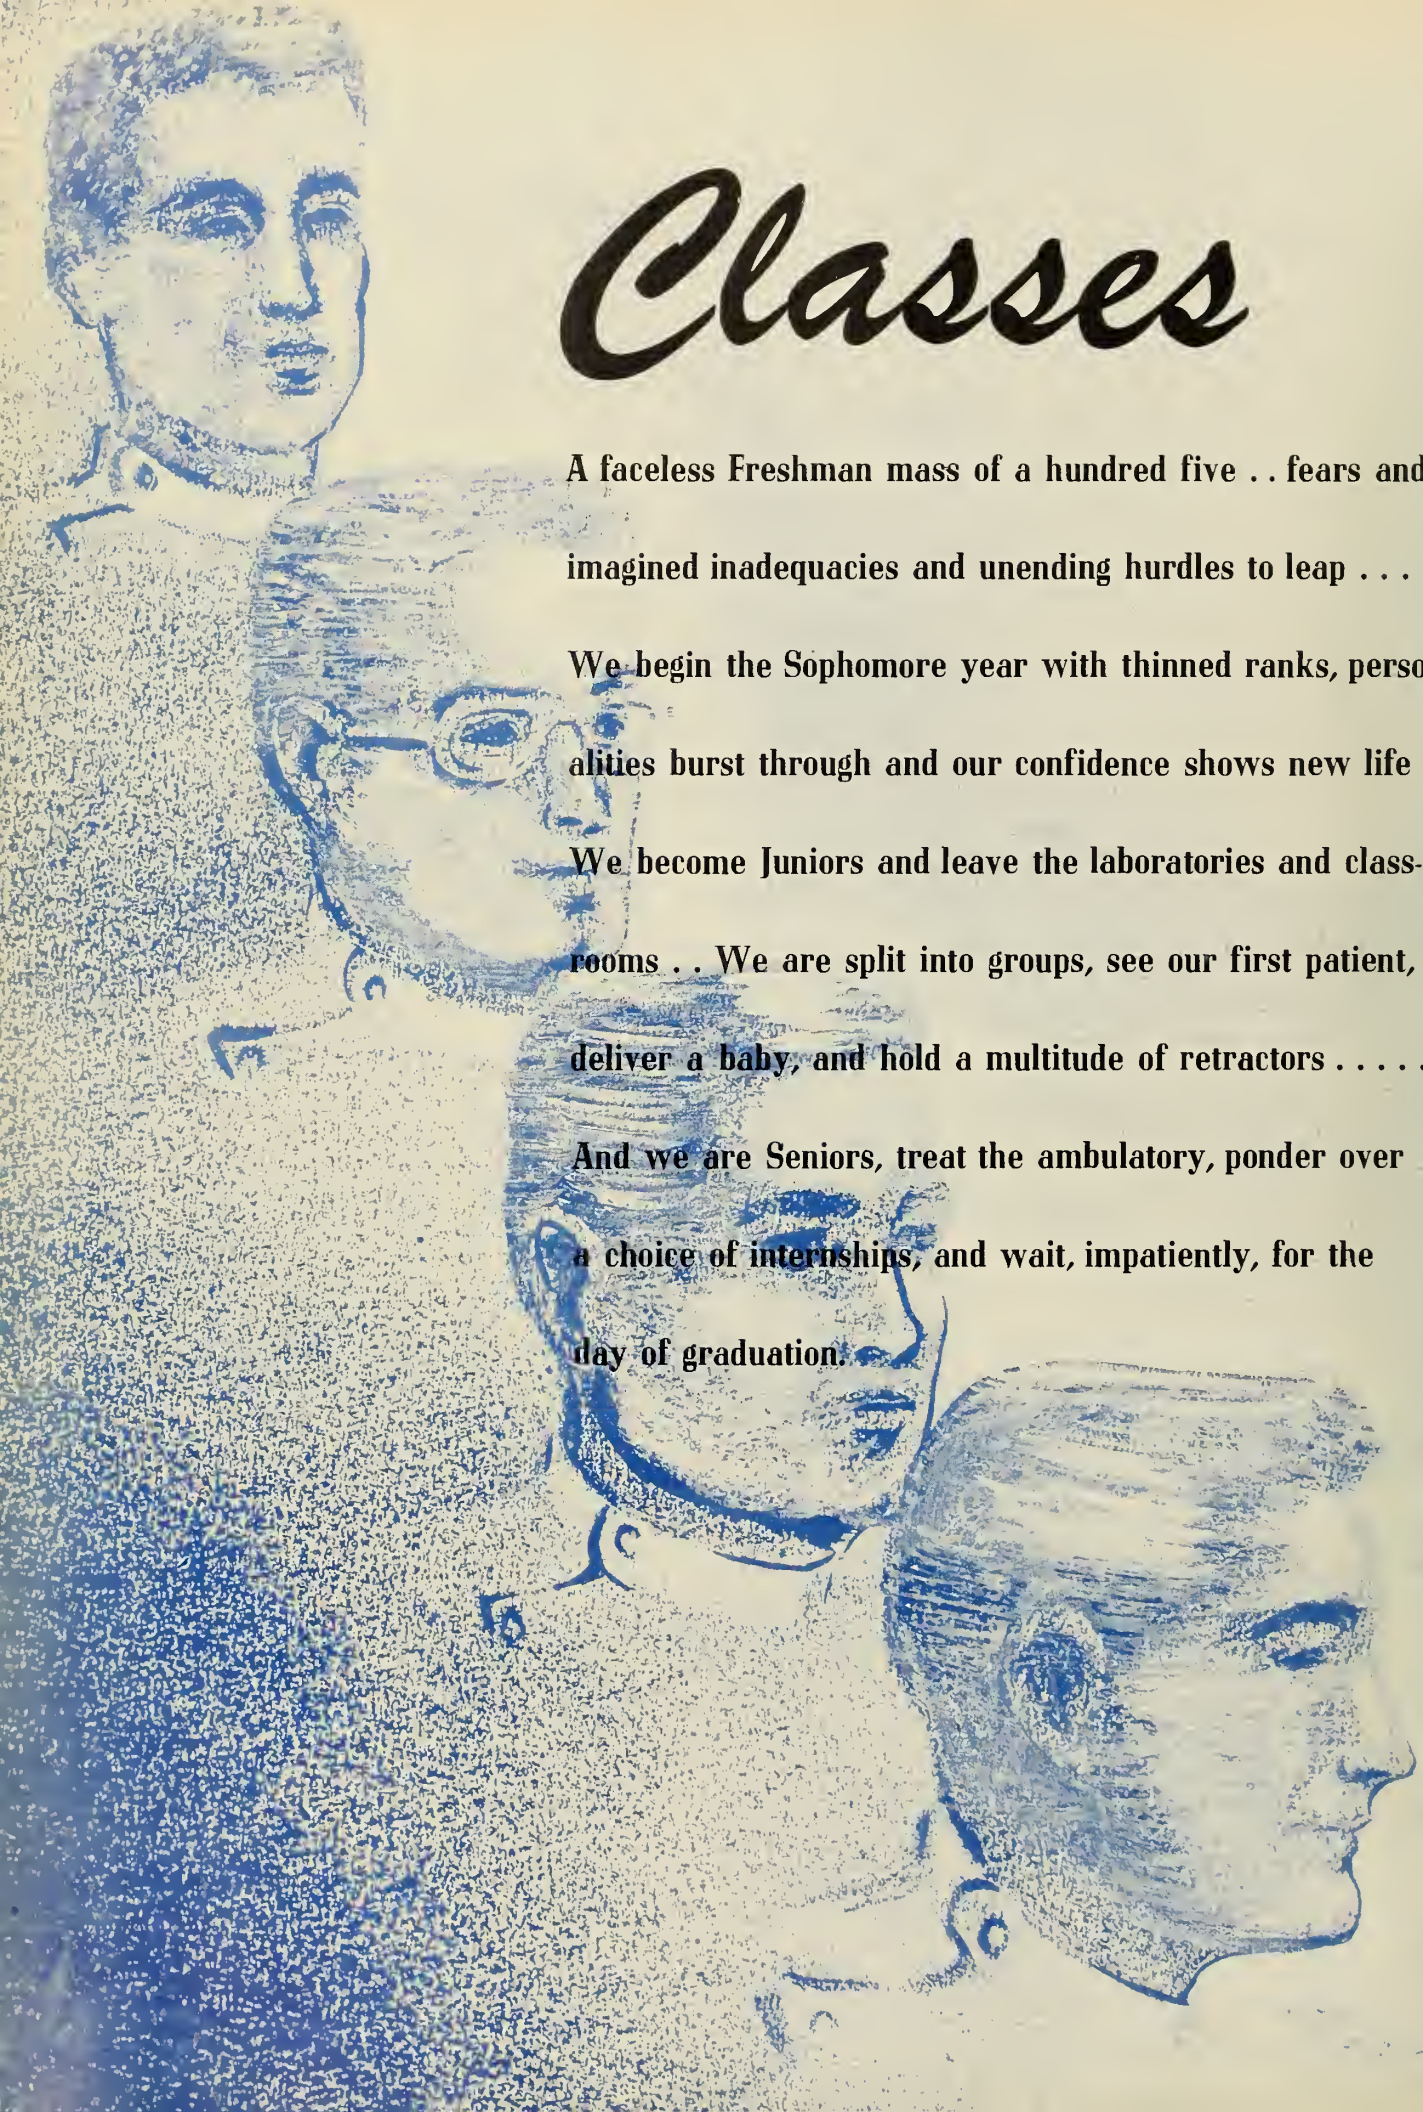
Three lovely ladies.

Shyness, Worldliness, and Concentration.

What's the serum level of stramonium?

Pulsatilla, Hepar Sulph, and 600,00 units of penicillin.

Open your mouth, ya little punk!



Classes

A faceless Freshman mass of a hundred five . . fears and imagined inadequacies and unending hurdles to leap . . . . .

We begin the Sophomore year with thinned ranks, personalities burst through and our confidence shows new life . . . . .

We become Juniors and leave the laboratories and classrooms . . We are split into groups, see our first patient, deliver a baby, and hold a multitude of retractors . . . . .

And we are Seniors, treat the ambulatory, ponder over a choice of internships, and wait, impatiently, for the day of graduation.

Student Institute

The Student Institute is eomposed of the presidents of the four classes and two elected representatives from eaeh of these classes. The Institute is the student governing body of Hahnemann. In this eapaeity it directs student activity, integrates student opinion, and promotes social, aeademie, and administrative participation by the undergraduate body.

Although not a member of the College Council the opinions and suggestions of the Institute are graeiously received by the Dean's Offiee and given due consideration in effort to establish the highest degree of seholastic proficiency and student eontentment. Acting under a new eonstitution which affords full eontrol of Student Activity fees, the Institute has partially or fully subsidised such organizations as the Research Society, the Blue and Gold, Athletic Club, the Honor Society, and the Medic. There have recently been established several literary prize funds in order to stimulate student contributions to the literature. Also a four hundred dollar honorarium for summer student researeh has been made available.

The Institute is the voiee of the student, his liason with the upper eshelons of administration and edueation, and as snch through his four years of medical growth serves him eonstantly and serves him well.

Alpha Kappa Kappa

Four years ago, the Beta Phi Chapter of Alpha Kappa Kappa had approximately twenty members, had no fraternity house, was financially unstable and had an inactive faculty. Now, however, we are pleased to announce that Alpha Kappa Kappa is one of the strongest and largest fraternities at Hahnemann. During the past four years, we have built up our membership to where it numbers sixty active members. We are a well-organized group who now have a fraternity house of their own and have, through concerted efforts, completed the remodeling of the basement and expect to hold monthly social affairs in the immediate future. Our faculty is one of the most active and strong at Hahnemann. They have been extremely helpful both in making us financially solvent and in their invaluable guidance in fraternity affairs.

The entire fraternity wishes to extend its sincere thanks to the outgoing senior members for their active and enthusiastic participation in all fraternity functions during their four years at Hahnemann. Each and every one of them contributed immeasurably to the progress and growth of the fraternity. It was upon this nucleus of members that the fraternity was able to build itself up into our present status. Two of the outgoing seniors, George Glenn, last year's president and Vincent Desiderio, current president, both carried out their duties very efficiently. The outgoing senior members are: Tom Carter, Jim Day, Dom Monta, Vincent Desiderio, Jim Squadrito, George Glenn, Brad White, Hugh Knight, Dave Kelleher, Bob Dixon, Dom Pagliaro, Mike Stamatakos.

Phi Beta Pi

The spirit and strength of our fraternity, growing rapidly since the national affiliation of the Beta Kappa chapter in 1947, found concrete expression this year in the acquisition of a house, located at 1522 Race St.

Phi Beta Pi, boasting 39 chapters in approved medical colleges throughout the country, was founded at the University of Pittsburgh in 1891, placing it among the oldest of the medical fraternities. Ours is one of the non-sectarian groups on campus. Our criteria for membership reside in the high standards of scholarship, personal integrity, and social compatibility of the individual.

By having frequent congenial social affairs open to all we join in that excellent spirit of reciprocity which exists among the fraternal groups of our school, and which characterizes so well the friendliness of all at Hahnemann.

With our membership increasing rapidly each year, we look forward toward days of equally increasing benefit to our members, our fraternity, and to our fine school.

Phi Delta Epsilon

Phi Delta Epsilon originated in 1904 at the medical school of Cornell University. Beta Zeta chapter has been an active unit at Hahnemann for over twenty years, and is one of Philadelphia's four chapters of one of the nation's largest non-sectarian medical fraternities. This year these chapters moved out of our old house at Ninth and Spruce Streets to take occupancy of new quarters at 313 South Twelfth Street.

Our schedule of activities this year included several house parties, at which we were pleased to find many Hahnemannians in attendance. Our social "crowning event" was the five chapter dance, this year held at the Benjamin Franklin Hotel on March 7.

This year we presented Dr. Louis Katz, director of cardiovascular research at Michael Reese Hospital, Chicago, as the speaker at our annual lectureship, April 13.

In addition to social and scientific activities, Beta Zeta chapter this year initiated a cultural activities program under the leadership of senior Jerome Karasic. The program includes lectures and discussions of art, music, philosophy, politics, and in short, a variety of subjects which should interest anyone, and is designed especially for the upper classmen who have more time for such interests, and, having acquired a more staid outlook, are somewhat less interested in parties as their main form of recreation.

In these ways Phi Dee E is endeavoring to make its activities complete from the students' first steps in medical school to his first steps as a budding physician.

Phi Lambda Kappa

Phi Lambda Kappa was founded at the University of Pennsylvania in 1902. The Hahnemann chapter, Alpha Beta, was activated and became a member of the national organization in 1927. Since that time the fraternity has grown both in scope and in number of graduate units.

Scientific meetings play an important part in the fraternity program and are held once a month. Lectures, films, CPCs, are designed so that each class will be able to contribute in some manner. Once each year we have a guest lecturer for the Medical College at large. Guests such as Drs. O. W. Wangensteen, Walter Damashek, and Max Thorek have been presented. This year Dr. Samuel Levine spoke on the topic, "Rest—In the Treatment of Heart Failure."

Our social life lightens the academic aspects of medical school. Monthly socials are held at our recently acquired house. The peak of the social season is reached in the annual Thanksgiving Dance held at the Warwick.

Phi Chi

Phi Chi fraternity was founded at the University of Vermont in 1889. Phi Alpha Gamma, one of the oldest fraternal orders at Hahnemann was incorporated into Phi Chi in 1948. Since that time it has flourished into the largest of the five fraternities at Hahnemann. We number brethren in every state of the union, and in the foreign lands where we are to practice medicine.

The present undergraduate body consists of sixty-five fraters, from varied backgrounds and of different personalities. They all strive together to keep honor and spirits high, and to maintain a desirable academic level for the gratification of themselves and of Phi Chi. This year the Fraternity bought a new house, near the College and Hospital, on 1624 Summer St. Phi Chi has established this house not only for its own brothers, but for whomever of the undergraduate body is seeking fraternalism and friendship.

Alpha Epsilon Iota

Alpha Epsilon Iota was founded in 1890 at the University of Michigan. In 1945 a charter was granted to Hahnemann Medical College, and a new chapter, Alpha Beta was formed. The purpose of the fraternity is to promote good fellowship among women students and to maintain a high order of scholarship and professional achievement.

Dinners and meetings are held throughout the academic year. Faculty members are invited to speak on these occasions, and there is social and educational discussion which follows.

With love and with gratitude we offer these pages of our chronicle to the wives of the class of 1953:

For sharing with us the pleasures and pains of our Odyssey . . .

For the uncomplaining acceptance of the hours and days and weeks of lonely waiting . . .

For yielding to the importunate demands of an erratic schedule . . .

For dissipating the bitterness of anguish and enhancing the jubilation of success . . .

For being the patient catalyst in this academic experiment . . .

THE OATH
I SWEAR by Apollo the physician and Æsculapius & Health & All-heal & all the gods & goddesses that according to my ability & judgement
I WILL KEEP THIS OATH
& this stipulation - to reckon him who taught me this Art equally dear to me as my parents to share my substance with him & relieve his necessities if required, to look upon his offspring in the same footing as my own brothers & to teach them this Art if they shall wish to learn it
WITHOUT FEE OR STIPULATION
& that by precept lecture & every other mode of instruction I will impart a knowledge of the Art to my own sons & those of my teachers & to disciples bound by a stipulation & oath
ACCORDING TO THE LAW OF MEDICINE
but to none others. I will follow the system of regimen which according to my ability & judgement I consider
FOR THE BENEFIT OF MY PATIENTS
& abstain from whatever is deleterious & mischievous. I will give no deadly medicine to any one if asked nor suggest any such counsel & in like manner I will not give to a woman a pessary to produce abortion
WITH PURITY & WITH HOLINESS I WILL PASS MY LIFE & PRACTICE MY ART
I will not cut persons labouring under the stone, but will leave this to be done by men who are practitioners of this work. Into whatever houses I enter, I will go into them for the benefit of the sick, & will abstain from every voluntary act of mischief & corruption; AND FURTHER from the seduction of females or males of freemen & slaves.
Whatever in connection with my professional practice or not in connection with it, I see or hear, in the life of men which ought not to be spoken of abroad, I WILL NOT DIVULGE
as reckoning that all such should be kept secret. While I continue to keep this Oath unviolated, may it be granted to me to enjoy life & the practice of the Art respected by all men in all times! But should I trespass & violate this Oath, may the reverse be my lot!

115 YEARS serving HOMEOPATHY

"B & T" . . . a name with a universally honored record of service to Homeopathic Physicians.

"B & T" set the standard in homeopathic preparations, select materials that meet exacting tests for potency and unvarying quality.

Consider, for instance, **"B & T"** Green Plant Tinctures: These therapeutic aids are made from medicinal plants that are gathered only when healing potentialities are at their zenith.

The known is nothing,

compared to the unknown

But modern medical research is penetrating this Unknown, continually placing new drugs in the hands of the physician . . .

Our research laboratories represent a vital contribution to this dramatic quest of modern medical science, and symbolize the spirit of service we have devoted to the medical profession since 1841.
